

The Island

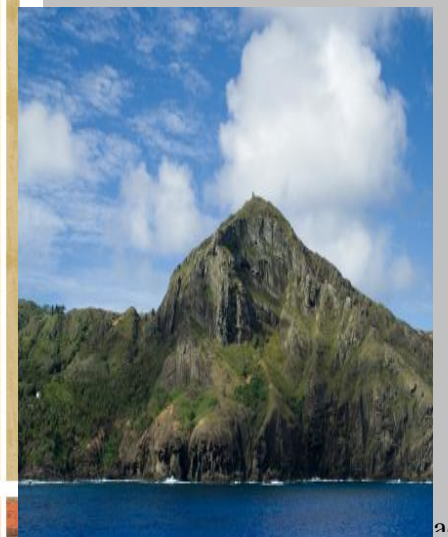

Located in the South Pacific ocean, somewhere between New Zealand and Brazil lies the peaceful, exotic and perfect Island.

"...so peaceful. The serenity of the place just overwhelms me and I step out from a stressful life and into relaxation."

Elanor Grubb

With weather never going below 17 degrees, and never higher than 35, the Island is the perfect place to settle down with your family. With a resort, family homes, booming industry and neighbours that know you, the Island is the place to be.
